

POSSESSION & ISOLATION MANAGEMENT

"...The way they manage their staff and their ongoing commitment to safety is something that my team and I really admire..."

Network Rail

POSSESSION & ISOLATION MANAGEMENT SERVICES

Possession & Isolation Management Services that make a difference...

Bridgeway has a proven track record as the foremost supplier of possession planning & Isolation management within the rail industry.

WHAT WE CAN DO

Our expertise and understanding of track access and the management of overhead lines is proven by our exceptional safety record. This enables our clients to share in the benefits we offer both in economic and deliverable terms on any rail project.

Our multi-skilled teams have an array of skills; we have expertise in access management, isolations, safety critical duties, supervising engineering work sites and SSoW planning. We are able to manage both possessions and isolations as a coherent joined-up service.

Our experience with Network Rail PPS (Possession Planning System) enables the end to end process from planning through to possession delivery.

In addition to this we have the largest team of PICOP(S) external of Network Rail and a support team of over 350 staff with an array of safety competences. We have a successful history in supporting possessions in the following areas across the United Kingdom:

- Crossrail Project
- Great Northern
- West Country
- Wales
- East Midlands
- Thames Valley
- West Coast Mainline (South)
- North East
- Wessex
- London Kings Cross Station Project

FURTHER INFORMATION

We also possess highly experienced safety critical personnel who hold multi disciplinary competences. They have ensured that projects are delivered in a safe and timely manner. This includes the following roles and duties:

- PTS track labour
- Lookout / Site Warden
- Controller of Site Safety
- Protection Controller
- Engineering Supervisor
- Auxiliary Operating Duties
- Machine/Crane Controllers
- Authorised Persons
- Nominated Persons
- Earthing Assistants
- Supervising Engineering Work Sites
- Relay/Renewals Bonding
- Temporary Bonding
- Supplying 195 Surveys (pre & post relay)
- Structure Exam and Surface Coating
