# SITE AND GROUND INVESTIGATION SERVICES

*Site and Ground Investigation Services that make a difference...*

Bridgeway has an enviable record as a supplier of specialist site and ground investigation services primarily for geotechnical, environmental and structural investigations.

## WHAT WE CAN DO

Our multi-skilled teams have particular expertise in many SI/GI works, working within and difficult access situations. Our staff are highly adaptable and have experience in rock drilling, metal and paint sampling, PTSI investigations and location of buried services.

With our ability to draw upon all our different operational departments, we can effect our own site access and liaise with Government bodies such as Network Rail to effect access permissions.

With this experience and skill set we are able to offer the following:

- Qualified Geotechnical Engineer led site works
- Cable Percussive boreholes
- Rotary Drilled Boreholes
- Dynamic Windowless Sampling & Probing (Include UT70 sampling Euro Code 7 compliant for class 1 samples)
- Concrete and masonry Coring
- Trial Pitting/Slit Trenching
- Logging to BS5930
- Factual and interpretive Reporting
- Laboratory Testing
- NRSWA / Road Closures
- Ballast Sampling
- Geotechnical Monitoring (inclinometer)

## FURTHER INFORMATION

The Company is Link Up approved for SI/GI work and is a Principal Contractor to Network Rail, which enables us to supply a full range of ground investigation work. In addition to this we are able to conduct works in both Greenfield and Brownfield sites.

The SI/GI team comprises the following dedicated staff, which can be supplemented on a project by project basis:

- Geotechnical Engineers
- Geotechnical Operatives
- Rig Operators
- Competencies include Network Rail Safety Critical, NRSWA and CSCS
