

Bridgeway Consulting Limited

Modern Slavery Act 2015 Statement 2025

Introduction

This statement is made pursuant to section 54(1) of the Modern Slavery Act 2015 (the Act) and constitutes our company's modern slavery and human trafficking statement for the financial year ending 31 December 2024. This statement has been approved by our Managing Director, Pino De Rosa.

Commitment to Ethical Business

Bridgeway is committed to operating the business with the highest ethical standards and respecting human rights throughout our operations and supply chain. We are dedicated to preventing modern slavery, servitude, forced labour, and human trafficking (collectively referred to as "modern slavery") in all its forms.

Structure and Supply Chains

We are a Civil Engineering Consultancy working in the UK, with a head office in Nottingham and other sites in Bristol and Croydon. We operate predominantly in the UK rail sector and are a Principal Contractor for Network Rail. Most of our consumables are purchased from UK suppliers. This includes vehicles, stationery, PPE, IT and site-based equipment and materials. Where possible we will always go direct to manufacturer to keep the supply chain short. In addition, we use a handful of Specialist UK labour agencies to meet short term staffing needs.

Bridgeway will never knowingly tolerate slavery or forced labour, and no one shall be required to perform forced or compulsory labour for or on behalf of Bridgeway Consulting Limited or its partners. During the last financial year, we were not made aware of any allegations of human trafficking / slavery activities against any of our suppliers. If we were to be made aware of such allegations, we would act immediately and work with our supplier and any necessary authorities to address any issues.

Our assessment suggests that the risks of slavery and human trafficking taking place in our operations and supply chains are relatively low, but we are not complacent. We are committed to working with our suppliers to ensure that they uphold the same ethical standards as ourselves.

Policies and Procedures

We have developed and implemented several policies and procedures to identify and mitigate the risk of modern slavery in our business and supply chains. These include:

- **Modern Slavery Policy:** Our policy sets out our commitment to preventing modern slavery and outlines the steps we take to achieve this.
- **Whistle Blowing Policy:** We encourage all employees, contractors, and suppliers to report any suspicions of human slavery without fear of retaliation.
- **Supplier Code of Conduct:** Our Code of Conduct sets out our expectations of suppliers regarding ethical labour practices, including a prohibition on modern slavery.
- **People and Development:** our People Policies and Recruitment Procedures demonstrate our commitment to ensuring that all our employees and contractors that we Sponsor to work on the Rail, have the Right to Work in the UK.
- **Risk Assessment:** We conduct risk assessments to identify areas of our business and supply chains where the risk of modern slavery is highest.
- **Due Diligence:** We conduct due diligence on our suppliers before entering business with them, and on an ongoing basis. This includes reviewing their policies and practices and conducting audits where necessary.
- **Training:** We provide training to our employees on modern slavery awareness and how to identify and report potential issues.

Performance and Measures

We are committed to continuously improving our efforts to prevent modern slavery. During the financial year ending 31st December 2024, we:

- Completed the Modern Slavery Assessment Tool provided by the UK Government to ensure any corrective action or measures are required.
- Updated our Vision to Exceeding Expectations Everywhere Safely, Socially and Sustainably to reflect our commitment to socially responsible operations, including modern slavery.

- Conducted risk assessments of our key suppliers.
- Delivered training on modern slavery awareness to key employees.

We will continue to monitor the effectiveness of our measures and identify areas for improvement. Our Senior Leadership Team have overall responsibility for compliance with the Act, and review progress and any concerns annually during Board Meetings.

Combatting Slavery and Human Trafficking during 2025

We are committed to ongoing improvements in our efforts to prevent modern slavery. In the coming year, we will focus on:

- Establishing KPIs to effectively monitor and measure the effectiveness of our initiatives.
- Increasing engagement with suppliers on modern slavery issues.
- Improving Due Diligence and Risk Assessment in line with Modern Slavery Assessment Recommendations

Reporting Concerns

We encourage anyone who has concerns about potential modern slavery in our business or supply chains to report them. Concerns can be reported confidentially through the following channel:

- To Lisa Brackner, Director of People & Development
- Lisa.brackner@bridgeway-consulting.co.uk

Further Information

This statement provides a summary of our approach to modern slavery. We are committed to transparency and encourage stakeholders to contact us with any questions.

Approval
