*Ecological Services that make a difference...*

*"...I was very impressed with Bridgeway during the ecological survey. Please pass on my appreciation to your team..."*

# ECOLOGICAL SERVICES

*Ecological Services that make a difference...*

Bridgeway has an experienced ecology team with specialist knowledge in site assessment, species surveys, biodiversity enhancement, habitat creation and management.

## WHAT WE CAN DO

Our experienced team has the skills to carry out ecological surveys, advice on mitigation strategies, carry out translocation, design habitat management plans and recommend biodiversity enhancement measures for a wide range of sites.

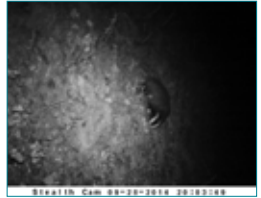

We have extensive knowledge of providing ecological services to the private and public sectors including:

- Ecological appraisal
- Extended phase 1 habitat survey
- Ecological impact assessment
- Botanical survey
- Hedgerow survey and assessment
- Nesting bird inspections
- Badger surveys and sett closures
- Bat surveys and mitigation
- Great crested newt surveys, mitigation and translocation
- Dormouse surveys and mitigation
- Reptile surveys, mitigation and translocation
- Water vole and otter surveys and mitigation
- White-clawed crayfish surveys and mitigation
- Invasive species surveys and method statement
- Site supervision
- Destructive searches
- Habitat creation and management plans
- Biodiversity offsetting and enhancement
- Biodiversity action plan
- Tool-box talks
- Ecological awareness training courses
- Code for Sustainable Home (Ecology chapter)

## BENEFITS

Involving Bridgeway's ecologists at an early stage in a project life (i.e. design stage) will minimise or even avoid some of the possible delays on site by advising on an efficient ecological work timeline delivery.

## FURTHER INFORMATION

Bridgeway ecologists are all members of the Chartered Institute of Ecology and Environmental Management (CIEEM) as well as hold personal European Protected Species (EPS) Licences which enable them to carry out EPS surveys.

Our ecologists are pragmatic, solution focussed and up to date with wildlife legislation and technology development in the ecological sector.
